March 2023

GENERAL TIPS

- Your Curriculum Vitae (CV or resume) should not exceed **one single-sided** page for the first **five** years of graduation
- Keep it **simple, short** and **precise**
- You have less than **one minute** to present yourself (30 seconds to impress)
- Begin with the **latest** and most **inspiring** information with a **stylish** design
- It is submitted for a **workplace**, not for a personal relationship
- Use appropriate **language** (English is preferred) and proofread it

It is all about getting an **interview**, not a job!
